TYNE COAST COLLEGE
FINANCIAL REGULATIONS

A COMPLIANCE WITH FINANCIAL REGULATIONS

- A1 This document sets out the College's Financial Regulations. It translates into practical guidance the College's broad policies relating to financial controls and represents the minimum acceptable standard to be maintained by the members and staff of the College. The Financial Regulations apply to the College and its subsidiary undertakings.
- A2 The Office for National Statistics reclassified the English College sector to Central Government from 29th November 2022. A significant adjustment to this change relates to financial management – as part of the public sector, colleges must now adhere to the government sectors spending rules which are set out in a HM Treasury Managing Public Money publication which sets out the requirements for all central government bodies.
- A3 The Education & Skills Funding Agency published a College Financial Handbook in March 2024; the Handbook:
- Describes the financial responsibilities of colleges, reflecting their status as charitable corporations acting in the public interest and classified as central government bodies
 - Explains when colleges must obtain advance approval for certain financial transactions and that colleges must ensure they are familiar with these requirements
 - Balances the need for effective financial management with the freedoms that colleges need over their day to day business
 - Reflects the Seven Principals of Public Life to which public office holders must adhere, these being selflessness, integrity, objectivity, accountability, openness, honesty and leadership
 - Must be complied with as a requirement of colleges accountability agreements with the Secretary of State for Education
 - Sets out that DfE may take action, in accordance with the framework for College oversight: support and intervention where there are concerns about a colleges compliance with financial management requirements
- A4 Whilst the College has autonomy over financial transactions arising in the normal course of business, some transactions have delegated authority limits beyond which colleges must obtain prior approval, regardless of the source of funds. The DfE may take action where colleges do not obtain the required approval in advance.
- A5 Transactions by colleges or their subsidiaries that may be considered novel (no prior experience or outside of normal business), contentious (cause controversy or criticism) or cause repercussive pressures on the college sector or other parts of the public sector to take a similar approach or set a precedent, must always be referred to DfE for prior approval.

A6 The College Financial Handbook provides a summary of freedoms and delegations recreated within the Financial Regulations – this is not a substitute for the full handbook.

A member of staff who fails to comply with the Financial Regulations may be subject to disciplinary action under the College's disciplinary procedure. Any breach resulting in disciplinary action will be notified to the Board through the Audit Committee.
- A8 It is the responsibility of the members of the College, managers and other Budget Holders to ensure that their staff are aware of their responsibilities under the Financial Regulations and College Financial Handbook and that an adequate number of copies are available for reference for staff involved in the financial affairs of the College and its subsidiary undertakings. The Financial Regulations and College Financial Handbook will also be made available on the College Intranet.
- A9 The requirement to comply with Financial Regulations and College Financial Handbook at all times will be brought to the attention of all staff via staff induction from managers.
- A10 The Financial Regulations will be reviewed regularly and amended as necessary to ensure they reflect the College's current structure and arrangements.
- A11 Where the Financial Regulations have been waived in accordance with guidance herein such occurrences will be reported to the Finance Committee by the Chief Operating Officer.

- H5.2 The College must take note of the Procurement Objectives within the Act, as set out below:
 - (1) In carrying out a covered procurement, a contracting authority must have regard to the importance of—
 - (a) delivering value for money;
 - (b) maximising public benefit;
 - (c) sharing information for the purpose of allowing suppliers and others to understand the authority's procurement policies and decisions;
 - (d) acting, and being seen to act, with integrity.
 - (2) In carrying out a covered procurement, a contracting authority must treat suppliers the same unless a difference between the suppliers justifies different treatment.
 - (3) If a contracting authority considers that different treatment is justified in a particular case, the authority must take all reasonable steps to ensure it does not put a supplier at an unfair advantage or disadvantage.
 - (4) In carrying out a covered procurement, a contracting authority must—
 - (a) have regard to the fact that small and medium-sized enterprises may face particular barriers to participation, and
 - (b) consider whether such barriers can be removed or reduced.

H5.3 A contracting authority must have regard to any published national procurement policy statement. This can be found at [National Procurement Policy Statement - GOV.UK](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/61222/national_procurement_policy_statement.pdf)

H5.4 The Members of the Board, or, in the case of an authorised employee acting under powers delegated to them, shall be responsible for ensuring that the College complies with its legal obligations concerning UK procurement legislation. Works	£5,372,609
Light Touch Regime	£663,540

H5.5 A breach of UK procurement regulations is actionable by a supplier or potential supplier. If a purchase is likely to exceed the thresholds the Procurement function should be contacted for advice on how to proceed.

H5.6 It is the responsibility of college managers and budget holders to ensure that their members of staff comply by notifying the Procurement function and Chief Operating Officer of any purchases likely to exceed the thresholds noted above. This is required in a timely manner and no less than 6 months in advance of the time goods or services are required to permit all required notices to be published on Find a Tender, the Central Digital Platform.

H6 EXEMPTIONS

H6.1 Any exemption from the requirement to obtain tender/quotation must be the exception to the rule and may only be applied for under specific circumstances via a Tender/Quotation Exemption Application Form.

H6.2 Exemptions will only be considered for values below public procurement thresholds contained within legislation.

H6.3 For values over £5000 and below Procurement Act thresholds exemption may be sought in one or more of the following circumstances:

evidence as to why the exemption is required. They must be signed by the budget holder and include a declaration that due diligence has been undertaken in support of the application.

- H6.6 When a tender is expected to have a value equal to or above the thresholds contained within The Procurement Act the exemption **must not** be accepted. The procurement team should be approached in these circumstances for discussion.
- H6.7 All applications will be evaluated to ensure that the College is not at risk of breaking procurement law or breaching funding body requirements that could lead to penalties or withdrawal of funding at a later stage.
